Subject: FW: Update on the Haskell Lake Tower Standard Project

President Wildcat,

As you may be aware, our Haskell Lake Tower Standard Project team has continued to work on moving forward on activities for source control at the site.

To date, I am pleased to report that we have achieved two milestones toward this goal:

1. A contract is now in place for our study of remediation measures for the Site. We anticipate receiving the Draft report the week of September 25, 2017.
2. We anticipate receiving our contractor's Draft Field Workplan for the Pilot Test to evaluate potential remedies of air sparging/soil vapor extraction and excavation during the week of September 18, 2017.

Upon receipt of these reports, I will email them to you and Larry Wawronowicz.

If you have any questions, do not hesitate to contact me.

Thank you

From: Harris, Michael

all – i agree with ignacio’s comment and not use the term “interim” if possible.

also, suggested change noted below in red and strikeout, barbara

I have a question about the use of the term “interim.” In using that term are we implying that a final remedy may do more than the “interim” – we’ve also used the term “source control” - is it better to consistently use that term instead? I’m uncertain as to what term we’ve been using in our technical discussions with LDF.

+++++

President Wildcat,

~~Hope all is well.~~ As you may be aware, our ~~We have a dedicated team working on the~~ Haskell Lake Tower Standard Project team has continued to work on moving forward on activities for source control at the site.

To date, I am pleased to report that we have achieved two milestones toward this goal: ~~s interim measures effort.~~

1. A contract is now ~~Contract is in place for the Interim Measure Corrective Measures Study~~ your study of remediation measures for the Site. We anticipate receiving the Draft report the week of September 25, 2017.
2. We anticipate receiving our contractor's ~~the~~ Draft Field Workplan for the Pilot Test to evaluate potential remedies of air sparging/soil vapor extraction and excavation ~~from the contractor~~ during the week of September 18, 2017.

Upon receipt of these reports, I will email them to you and Larry Wawronowicz ***do you want to say for which ones you want comments on and reiterating that they will have a short time frame as was already indicated to them?****.

If you have any questions, ~~please let me know.~~ do not hesitate to contact me.

Thank you
